In the “Baby Boomers” days one’s chosen career often remains for life as then it is seen as unreliable if one changes career often. Times have changed. Today our Y-Generation faces multiple choices and options and many do go through multiple career changes. Such a move today is considered a norm rather than an aberration. Our bag no longer bulges with files but a computer notebook that enables one quickly to access and do multiple tasking.

How then is this related to Pudu Rotary Club? We have just over 60 members today and out of this number almost 50% are Past Presidents. We are ageing. For more than 20 years we have struggled to maintain our numbers at around 60 and last year IPP Robin Tay tried to reach 66. He almost did and today we are have just over 60 members counting our latest member Laura Lee. So it is the eternal struggle between membership growth and retention.

The just concluded Membership Development Evening has the objective to interest and attract new members. There were present many young invited guests and it would have been great if they could hear and identify themselves with some of our young Rotarians. We need younger members to narrow the age differences and grow our Club with a healthy mix. While Past Presidents have always been a great asset to the Club, one must recognize the need to look to the future for successors to continue the good work and legacy of PUDU.

It is thus timely that our President has asked for members to come forward to identify and suggest ways to “reenergize” our Club. Just recently our AG Karthi Palanisamy spoke to us on the “Facebook” generation and how his club the RC Central Damansara has attracted a large following of “road warriors” and the new generation young derives a lot of fun being different, even unorthodox by the average Rotary standard.

It’s a challenge to us to re-look, rethink and redo many things that may have become the norm. We have to try to stay relevant in today new century. Is it so bad if one allows the new generation to surprise us with their way of getting things done?

“The future belongs to those who believe in the beauty of their dreams”. Let us re-ignite our dreams.

**Visit to Jenjarom**

Rotarian Mok Sin had once again organized a successful visit to our adopted old folks’ home in Jenjarom.

About 50 Pudu Rotarians, spouses, children, friends and Rotaractors spent their Sunday morning to bring cheer to the usually quiet home currently occupied by 19 old folks.

We prepared a “Dim-Sum” pot-luck for them and our Vice President CT Heng’s cousins even drove their specialized van to the home to steam the dim-sum. Some Rotary Anns prepared home cooked “tea-eggs” and “yam cakes” to treat the old folks, and Mok Sin brought the roast pork that the old folks requested.

The old folks enjoyed the special treat and were given gifts of towels, toiletries and ang pows. The Rotarians, family and friends also enjoyed the great fellowship. Well done, Mok Sin!

Since our club adopted this home in back in 1988, we have been visiting them twice every year. In addition to giving the home RM6,000 each year to pay for a cleaner/cook, our club had over the past 22 years contributed in many other ways including building their current home, installation of hot and cold water drinking systems, giving of bed frames, mattresses, electrical appliances etc. Our members have also served these old folks through their vocations. Just to name a few, the doctors, the building contractors, the lighting specialists and the electrical appliances retailer. Our club’s contributions had help in providing the old folks a clean and reasonably comfortable home to live in.

Before this last visit, I had a nagging question in my mind whether our club should consider moving on to serve other homes that have more pressing needs? I think I have got my answer...

As I walked into the compound of the home, I saw a familiar sight of these old folks sitting in a row in front of the home, patiently waiting for us to arrive. There was a warm feeling in my heart as I recognize many familiar faces and it was good to see them again. I was told that the old man whose bed was located at the back yard had passed away. I strolled to the back of the home to see the vacated space and can’t help but felt a tinge of sadness. I chatted briefly with one of them and greeted the others.

I realized that through the years, our club has built up a relationship with the old folks of this home. It was not just about the money or the goodies that we gave, our club has continuously cared for the welfare of the people of this home. It is Relationship.

I promised myself, during the next visit, I would like to learn their names.

In Rotary Service,  
President RY 2010/2011

## ***Club Proceedings***

The evening's proceeding started with the acting SAA K.A. Kumar asking Rotarians to be "outstanding" when he meant "upstanding" to welcome our guests. PP Gary, the finemaster, was hilarious with fines for various "offences" committed by Rotarians. Acting SAA was fined for "fumbling" with his delivery, PP Mike Tung for coming later than his guest, members for not wearing their tags, and the birthday boy PP KU Rajah. Those just returning from overseas were noted and fined too.

Sarky who thinks that Ann Shirley is "one of the Rotarian's spouse" became a victim of Gary's fining session.

Pres. Choy Ying took over after this to make her announcements. She then conducted the induction of the first new Rotarian for the Club, Laura Lee after Laura was introduced by her proposer P.E. Stephen Oon. Rtn Laura in her maiden speech to the Club pledged to do her very best. She is assigned to the TRF and Service Committee.

Pres. Choy Ying closed the formal part of the evening after Secretary Lawrance made his announcements and handed over the proceeding to PP Gary Lim who chairs tonight's function of Membership Development Evening.

President Choy Ying was the first of 5 speakers scheduled to speak this evening and she gave a quick account of what Pudu Rotary is about and touching on the Clubs past and present activities. With her slides she quickly showed projects under our Community, Vocational, International, New Generation and Club Service committees. It was after all an "interest" evening meeting targetted to introduce and hopefully interest some to come forward to join.

The next speaker PP VG Chandran took over the rostrum to speak on Rotary International. Noting that he first joined Rotary in 1972 and he has till today find it refreshing

and look forward to attending the Club's Monday meetings each week. It was a well prepared talk that showcase the founding of Rotary in 1905 and how it has since grown to be a "big organisation" with over 1.2 million members and some 33,000 Clubs worldwide.

As PP Chandran's talk took some 40 minutes PP Gary had to ask the three other scheduled speakers, namely PP Albert Lim, Lawrance Annies and Jeffery Ong to speak on another occasion.

Next on the programme was our invited "Michael Jackson" impersonator who gave us a close impersonation of the late singer. He was able, after that, to get a couple of Rotarians and sporting guests to the floor at the close of the night's Membership Development evening.

**LIVE TILL 80? I WILL, HOW ABOUT YOU? (Could this be from SAM?)**

I recently turned 65 and went to check with Dr. Lee Hoo Teong.

After two visits and exhaustive lab tests, he said I was doing "fairly well" for my age.

A little concerned about that comment, I couldn't resist asking him, "Do you think I will live to be 80?"

He asked: "Do you smoke tobacco or drink alcoholic beverages?"

"Oh no," I replied. "I don't do drugs, either."

"Do you have many friends and entertain frequently?"

I said, "No, I usually stay home and keep to myself".

"Do you eat rib-eye steaks and barbecued ribs?"

I said, "No, my other doctor said that all red meat is unhealthy!"

"Do you spend a lot of time in the sun, like playing golf, sailing, hiking, or bicycling?"

"No, I don't," I said.

"Do you gamble, drive fast cars, or have a lot of sex?"

"No," I said. "I don't do any of those things."

He looked at me and said,

**\*\*Then why on earth do you want to live to 80? \*\***

## **August is Membership and Extension Month**

(by Rotary eClub One)

August is Rotary Membership and Extension Month, a time when all Rotarians are invited to make a special effort to invite friends and colleagues to join Rotary.

Rotary enjoys a rich and sometimes complex tradition and organizational structure, with many programs that can be confusing to prospective members, new members and even not-so-new members.

Here are some notes that may be useful as you explain Rotary to a prospective new member.

The club is the cornerstone of Rotary, where the most meaningful work is carried out.

All effective Rotary clubs are responsible for four key elements: sustaining or increasing their membership base, participating in service projects that benefit their own community and those in other countries, supporting The Rotary Foundation of Rotary International financially and through program participation, and developing leaders capable of serving at club level, and later beyond the club level in Rotary district and International roles.

What Rotarians get out of Rotary depends largely on what they put into it. Many membership requirements are designed to help members participate more fully in and enjoy their Rotary experience.

### **Rotary Service**

All Rotary clubs share a key mission: to serve their community and those in need throughout the world. By participating in club service projects, members learn about their club's involvement in local and international projects and can volunteer their time and talents where they are most needed.

### **Membership recruitment and retention**

To keep clubs strong, every Rotarian must share the responsibility of bringing new people into Rotary. Even new members can bring guests to meetings or invite them to participate in a service project.

The value of Rotary speaks for itself, and the best way to spark the interest of potential members is by letting them experience fellowship and service firsthand.

Keeping members interested in Rotary is another responsibility. Good club fellowship and early involvement in service projects are two of the best ways to sustain the club's membership.

The ideal composition of a Rotary club reflects the community's demographics, including professions, gender, age, and ethnicity. Such diversity enriches every aspect of the club's fellowship and service.

### **Attendance**

Attending club meetings allows members to enjoy their club's fellowship, enrich their professional and personal knowledge, and meet other business leaders in their community. Club meeting times vary to accommodate members' family and professional commitments.

Some clubs meet during the traditional time of the lunch hour, while others meet in the early morning, after work, or in the evening. Some Rotary clubs meet via the Internet.

Rotary policy requires members to attend at least 50 percent of club meetings in each half of the year. If members miss their own club's meeting, they're encouraged to expand their Rotary horizons by attending make-up meetings at any Rotary club in the world — a practice that guarantees Rotarians a warm welcome in communities around the globe.

Rotarians can also make earn a make-up attendance credit by participating in a club service project, attending a club board meeting or a Rotaract or Interact club meeting, or attending an online meeting at one of the Rotary e-clubs.

“**Rotary Basics**” is an indispensable tool for introducing new and prospective club members to the fundamentals of Rotary.

### **PDG PAUL'S TAKE ON ROTARY'S 2ND CENTURY OF SERVICE CHALLENGES & CHANGES (PART 2)(FUTURE VISION PLAN)**

As for **FUTURE VISION PLAN** of the The Rotary Foundation, the main feature of the plan is that there will be two grants namely the District Grants and the Global Grants. The District Grant is what we know now as the District Simplified Grant (DSG). The Global Grants aims to be involved with larger humanitarian project with bigger impact and longer benefits. Funds for the Global Grants could also be from Global Grant Partners or the current World Fund. All Global Grants projects must be within the six areas of focus of the FVP namely:-

**Goodwill & Peace**

(1) Peace and Conflict Prevention/Resolution,

**Health**

- (2) Disease Prevention and Treatment,
- (3) Water and Sanitation,
- (4) Maternal and Child Health,

**Education**

(5) Basic Education and Literacy,

**Alleviation of Poverty**

(6) Economic and Community Development

The Future Vision Plan of The Rotary Foundation evolved fundamentally from the dramatic increase in The Rotary Foundation programmes and its administrative impact.

All the programmes are doing tremendous good. Thus the motto of The Rotary Foundation is “Doing Good in the World”. But one area became grave concern and that is the drastic increase in the number of Matching Grants. It thus became almost impossible for Evanston to manage the voluminous solicitations or Match Grants support.

Whilst the need for more funds to match is one, the major issue is the increase workload on the TRF staff. Therefore, simple put simply “we became victims of our own success”.

In a nutshell, the Future Vision Plan aims to reduce the number of Matching Grants through increasing the size of each grant from a minimum of USD5,000 to USD15,000. In addition, 50% of the DDF and not just 20% as of now is allowed to be used by the district to carry out humanitarian projects decided by the district as District Grants. That so to say “gives more decision making back to the district in using their DDF”. With the Future Vision Plan, many of the foundation programmes will either be changed drastically or discontinued.

My personal perception on the possible implications of this FVP are :-

1. Clubs and district from less developed countries will find it more difficult to carry out Matching Grants with at least USD15,000 or a total grant of USD60,000. In these countries where the exchange rate for the USD is very large, even the USD15,000 is a lot of money.
2. The return of 50% DDF as District Grant means that there is lesser “benefit” from the contributions made to the Annual Programmes Fund in that in reality

only 25% of the total contributions were returned back to the district.

3. The FVP has also placed even greater emphasize on stewardship. Clubs and district have to conform to the requirements of the FVP Stewardship requirements and official detail documents must be filled and signed before the clubs and district can participate in the FVP programme. This voluminous documentation will pose problems to weaker clubs and districts or where the official languages of RI are not used. The need for yearly renewal will also deter many from being able to participate. Let us be reminded that the failure in Matching Grants participation in the early days was simply that the Matching Grant forms needed too much details and difficult to fill.
4. The removal of so many programmes of The Rotary Foundation, the drastic changes to the others and that funding will now not be from world fund but from DDF may result in lesser participation in the programmes. If these programmes are not well supported or participated, it can lead to a decline or even “demise” of the programmes.
5. The poorer return through the District Grant, larger Matching Grant and yearly detail stewardship conformity will pose greater difficulties in participating in the Matching Grants programmes. This inability to participate may result in a sense of not benefiting from the programme causing lesser inclination to contribute to the Annual Programmes Fund. This if it happens will be a back-lash on Rotary moving forward.

So while we in Rotary welcome change and accept that change are inevitable, will the two major changes proposed by our leaders in Evanston bringing Rotary, in this new century, into the twilight of tomorrow or will it lead us to a galaxy of uncertainties

This is food for thoughts for all of us.
